MORRIS'S CAFÉ

25, PRIDE HILL, SHREWSBURY

"The Home of the visitor, ladies shopping, and young folk about town."

THE Cafe occupies the first floor of our main store opposite the Post Office on Pride Hill. The entrance is through the Confectionery Section of the Store and you may use the Lift or walk up the beautiful Oak Staircase, both of which lead to a charming Lounge Hall, the walls of which are covered in Tapestry, old timber work, rich oak panelling, and period plaster work. The ceiling, from which hang old world Candelabra, is also an interesting feature.

From the right of the Hall, entrance is gained to the main Cafe (or Elizabethan Room). By reason of its many interesting features, its loftiness and general spaciousness, this is one of the most charming of rooms. The lower half of the walls are in old brown oak panelling taken from demolished mansions. The upper half is in old plaster work, decorated with the Arms of Shrewsbury and other old English and Welsh Boroughs. At one end of the room a delightful Minstrel Gallery is erected which enhances the atmosphere of romance which is felt when one first enters the room. At the other end is a richly carved stone Fireplace, surmounted with a carved Oak Overmantel bearing the Loggerheads or Arms of Shrewsbury, while on either side are richly coloured Panels depicting the battle of Shrewsbury

Morris's Café—*Continued.*

and an old Hunting Scene. The windows at once attract attention, Stone Mullioned and Leaded Lights with Bulls-Eye and Stained Glass depicting Historical events of the Period cause visitors to inspect each one separately and the mind reverts back to the romantic days of the Sixteenth Century. The ceiling, a masterpiece in period work, is a facsimile of the Bromley ceiling in South Kensington Museum and carries two period Candelabra. Leaving this room and walking across the Lounge Hall, one notices the iron-studded doors on the left, and passing these, we enter the Tudor Room. The visitor at once proclaims the beauty of the old-world Fireplace, situated at the far end of the room, with Roasting Jack, Spinning Wheel and other domestic articles commonly in use in Great Grandma's day.

The Nut Brown Panelling round the walls is surmounted with old Pewter Plates and Vessels. The Ceiling has heavy Oak Beams and old Plaster Work, and the Windows each tell a story of years ago. Rush-seated Spindle-back Chairs and old Oak Tables and Settles complete the atmosphere of the Period.

Entering the Lift we descend to the Ballroom. This spacious Room is fitted with a Spring Parquet Floor, and here again the Decorations and Lighting are in perfect harmony, inviting the "light fantastic toe" and suggesting an ideal rendezvous of all who enjoy dancing to the accompaniment of a good Orchestra.

The whole of the building is heated by Hot-water Radiators and every precaution has been taken to ensure perfect safety as well as comfort and convenience to visitors.

The service in the Café is smart and modern, necessarily, although amidst such surroundings one would expect to see "Serving Maids" curtsying and moving with slow grace.

MORRIS'S "IDEAL" BREAD has been awarded Gold Medals at various exhibitions. It is baked from pure untreated flour of the highest grade, and is as pure and wholesome as bread can possibly be. The modern bakery plant obviates unnecessary handling from the mixing machine to the oven.

This is a department rapidly forging ahead owing to the great care taken in selecting only the best young well fed oxen, sheep, calves and pigs for slaughtering, and the care and cleanliness observed in handling the meat when it is delivered to our Meat Kitchens and counters from the public abattoirs, after it has been carefully inspected by the efficient inspector appointed for this purpose.

Our prices, quality considered, are always keenly competitive, and prompt attention is given to delivery of orders.

TEAS.

MORRIS'S TEAS OF DISTINCTION.

There is something of a mystic craft about Tea Blending. More than thirty different growths, each from a different Eastern Tea Garden, are blended with exquisite care, one being added for fragrance, another for colour, and yet another for strength, to produce a blend that is perfectly balanced.

Our "GOLDEN BREW DE LUXE BLEND" has made many firm adherents through its delicious fragrance and strength. Originally specially blended for use in our Cafes, we now sell precisely the same blend in our Grocery Departments Per lb. 2/8.

Assam and Ceylon Blend 1/8

Quite an economical Tea, suitable for general Household use.

Extra Assam and Ceylon 2/-

A very popular Tea, having great strength and quality.

Our Famous "Golden Brew" 2/4

A blend of the choicest selected Assam, Ceylon and Darjeeling Teas. The secret of its excellence lies in the careful selection of the leaf and in its expert blending. For flavour, aroma, and richness it is without equal. Used in our Cafes.

Golden Tips 2/4

A new Tea of small leaf which has become very popular. Bright golden tips.

TEAS FOR MIXING.

These are pure unblended Teas of a very strong marked character, and of course not intended to be used alone, being quite distinct in style—their purpose being to modify or improve the flavour of cheaper Tea; or some people prefer to add a small quantity to the ordinary household Tea as required.

Green Gunpowder 3/6

Extra choice Tea, for Mixing.

Pure Caper 3/6

A superb choice new crop of first growths.

PURE CHINA TEAS.

China Blend 2/10

Fragrant and aromatic. A pure China Tea of the type recommended by the medical profession for people who cannot digest ordinary Tea.

China, Extra Quality 3/6

This choice, delicate Tea has a distinctive aroma and flavour, and is in high favour.

Lapsang Souchong 4/8

A Tea rich in Theine, easily digested and a luxury to all who enjoy delicately flavoured Tea.

VARIETY

The enormous variety of commodities stocked in each of our Food Stores—at our Main Store on Pride Hill especially—is somewhat unusual for the Provinces, and whilst this Shopping Guide is rather comprehensive it cannot be fully so, because we are continuously adding to the number of commodities—those new introductions by manufacturers which we think will interest our clients, and which after testing we can confidently recommend.

Nothing new escapes our notice and if it is worth stocking we stock it.

In our model Food Kitchens we are frequently producing new and tempting confections, new chocolate centres, and other good things to eat.

A new way to mark jars is to paste on the jars pictures of the fruit or vegetables cut from seed catalogues. Let the children cut out the coloured pictures of Strawberries, Apples, Peaches, Tomatoes, etc. It will interest them and a shelf of preserves marked in this way looks very attractive.

WORTH KNOWING.

Close your eyes when using the telephone and experience not only a sense of relaxation, but also a clearer understanding of the message. This suggestion was given by an oculist to a woman who insisted that it was impossible for her to avoid eyestrain. It is not only good for the eyes, but also a help to tired nerves.

WE SELL HUNDREDS OF JARS PER WEEK

OF OUR

Home-made Jam and Marmalade,

on their MERITS as preserves of UNUSUAL excellence. Do you eat our Home-made Jam? If you do, you know it tastes as good as any that your friends laboriously make at home. If, by any chance, you have never tasted it, we can only advise you to try a jar for a change—it is APPETISING—DELICIOUS—SATISFYING.

Then again, are you one of those people to whom factory jam is an abhorrence?

You will find that our Home-made Jam was specially made for your convenience—that is one of the main reasons for its popularity.

*Oh, the joy
of Heinz Soups!*

THE REASON WHY:

57 reasons go to the making of the joy in Heinz soups. First of all, the flavour of each is the flavour of quality, for only the best is good enough for Heinz, the best of fresh gathered vegetables that England and Canada can produce, the best cuts of meat in the meat soups, and in the cream soups rich thick cream. And because these soups are made in the good old-fashioned way, slowly simmered—grandmother's style—they are bubbling over with nourishment. And because all the ingredients are perfectly cooked and perfectly balanced, they are perfectly digestible.

If a stew or soup is made too salt, add a few slices of raw potato and cook a few minutes longer. The potato will have absorbed most of the salt without giving its own flavour to the soup.

HINTS FOR THE COOK.

Pudding Cloths will be found easy to wash if borax is added to the water.

Puddings are always better steamed than boiled. They should stand after being cooked for ten minutes before turning out.

If, when making pastry, a little lemon juice is added to the water, it will make the pastry lighter and remove all taste of lard or fat.

Bar Soaps are more economical in use than packet soaps, and they do not waste away so quickly. The "Best Pale" is best value and therefore cheaper in use.

All soaps are guaranteed by the makers to be full weight when leaving the works, and are subject only to evaporation. The better the soap the less evaporation takes place.

After scrubbing a clothes basket, rinse in warm water, then in cold salted water to harden it.

Add a handful of salt to the water in which pocket handkerchiefs are soaked. It makes the washing easier.

The juice of a lemon placed in water when boiling white clothes removes stains and makes the clothes beautifully white.
